Dr. Carol Couch  
Georgia EPD, Ste 1152, East Floyd Tower  
2 Martin Luther King Jr. Drive SE,  
Atlanta, GA 30334

Dear Dr. Couch

As you know, the Georgia Environmental Protection Division (EPD) is currently considering a request by Power4Georgians to operate a coal fired power plant in Sandersville. It is my understanding that a draft air quality permit is expected to be released for public comment in the near future.

This facility will impact Georgia for the next fifty years. Given the impact that this facility will have on communities around the state of Georgia, please hold hearings that are convenient for all Georgians. I request that EPD hold a minimum of three public hearings throughout the state, preferably in or near Dublin, Atlanta and Savannah.

With the air, water and earth in Georgia already polluted more than ever, causing double-digit increases in asthma and other health problems leading to less stable workforce, Georgians have been under attack. It is time to reverse these horrific trends. Time to listen to the people, not the usual "robber-barons" of the late 20th century. You're in a position to listen AND lead, Dr. Couch. What will you do?

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen J. Dorage".

Stephen Dorage
